I'm currently a researcher at the Weizenbaum institute in Berlin. I'm funded by the FOKUS research institute. I submitted my PhD thesis at the university of the West of Scotland in July 2023. My research interests are in social science computing and ethics in AI. In particular, I focus in my research on hate speech detection, social bias, and fairness in natural language processing (NLP). I also organize the women\_in\_NLP talk series.

## Research Experience

- Sept 2023 **Researcher**, *Weizenbaum Institute*, Berlin, Germany.  
**Responsibilities:** I joined the Data, Algorithmic Systems and Ethics research group. I'm working on investigating bias in Non-English and multilingual language models as well as studying bias in NLP models from a Non-Western perspective. I'm also working on investigating how the sources of bias in NLP models originate in social sciences.
- June 2022 **Research Intern**, *IBM research*, New York, US.
- Sept 2022 **Responsibilities:** I worked with the multi-language NLP team on measuring bias in and fairness in language models, and the effectiveness of different debiasing methods.
- Sep 2019 **Research associate**, *Knowledge Transfer Partnership (KTP)*, Glasgow, UK.
- Feb 2022 **Responsibilities:** I built an online platform to detect hateful textual content.
